

Part 1 - Business Requirements Document (BRD)

Judaism & Buddhism Community Accessibility Platform

1. Vision

Build a trusted digital platform that preserves religious knowledge, improves accessibility, and empowers Judaism and Buddhism communities with practical support services.

2. Mission

Provide one secure platform where members can learn, practice, connect with verified religious leaders, participate in community activities, and access career, seva, scholarship and government opportunities.

3. Judaism Community Problems

- Difficulty accessing authentic Jewish teachings.
- Lack of guidance for rituals, Shabbat and festivals.
- Hebrew language barriers.
- Difficulty finding verified Rabbis.
- Preservation of Jewish heritage and traditions.

4. Buddhism Community Problems

- Difficulty finding authentic Dharma teachings.
- Inconsistent meditation practice.
- Complex philosophy is hard to understand.
- Difficulty finding trusted monks, temples and retreats.
- Preservation of Buddhist heritage.

5. Shared Religious Problems

- Religious knowledge scattered across many sources.
- Language/accessibility barriers.
- Younger generations disconnected from traditions.
- Difficulty discovering religious events and activities.
- Need for trusted digital religious resources.

6. Community Empowerment Problems

Jobs & Careers: trusted employment opportunities.

Seva: discover volunteer opportunities.

Scholarships & Education: find educational assistance.

Government Schemes: discover welfare and benefit programs.

7. Problem Priorities

Critical: Religious knowledge, guidance, scholars, events.

High: Jobs, Seva, Scholarships, Government Schemes.

Medium: Heritage preservation, multilingual expansion.

8. MVP Scope

Core: Knowledge, Guidance, Scholars, Religious Centers & Events.

Support: Jobs, Seva, Scholarships, Government Schemes.

Platform: Authentication, Member Dashboard, Community Admin, Super Admin.

9. Future Scope (Not MVP)

AI assistant, live sessions, donations, marketplace, discussion forums, mobile apps, advanced analytics.
